Data Visualization/ MISPowerBI, Tableau, Mixpanel
Wireframing/ PrototypingFigma/ Canva/ MS Powerpoint
Prompt Engineering, Voice-AI Agentic pipelines and Integrated AI-workflows/ prototype development
Problem Solving, Stakeholder Management, Conflict Resolution, Delegation and Resourcefulness

PROFESSIONAL EXPERIENCE(S)

Founding Product Manager @ Voxar.ai [MSME Credit/ Lending, Agentic B2B SaaS]

Mar 2026 - Present

- Built a vernacular data labelling tool for AI call recordings — boosting accuracy by 10x per unit effort for 100+ hrs data.
- Prompt-engineered SOP guides for Payment Reminder & Collection voice agents, tested across 200+ calls — improving SOP-compliance from ~40% → 100% for deterministic agentic outcomes.
- Automated CAM Report generation from PD interview pipelines — cutting turnaround from 2–3 hrs → minutes across 10,000+ reports for 5+ NBFC/SFB clients.
- Built a Deviations Tracker to surface mismatches across PD, bank and credit sources — improving credit decisioning accuracy.

Product Manager, Enterprise + B2B @ Statiq [EV Charging Infra, B2B/ Enterprise]

Feb 2023 - Dec 2024

- Owned and scaled mission-critical workflows (ERP, CRM, lifecycle management) used by 500+ stakeholders; delivered 5x faster onboarding and a 50% drop in post-sale support tickets.
- Boosted order fulfilment velocity by streamlining asset deployment systems — cut go-live TAT from 100+ to <70 days while 5x-ing revenue throughput (₹30L → ₹1.5Cr/month).
- Launched from 0→1 a Salesforce-style CRM used across 5 verticals by 30+ BD reps; enabled deal pipeline visibility and improved repeat customer conversions.
- Re-architected back-end infrastructure — optimizing APIs, DB schemas, and in-house ops tools — to enable a modular business OS improving internal tool response time by 3x.

CTO's Chief of Staff & Product @ KidEx Venture Pvt. Ltd. [K-12 Ed-Tech, B2C]

July 2022 - Dec 2023

- Revamped user onboarding journey, reducing login friction from 3-5 steps to 1-2 — improving install→signup conversions by ~40%.
- Launched “Child Profile” value-education module that clarified app's core proposition, cutting signup→conversion time from >7 days to <3 days.
- Designed and led dev of the School Dashboard (B2B portal) from scratch.
- Ops-Efficiency Systemsization: Authored the app's first QA and regression test playbook Implemented a no-code scrum automation tool, raising engineering accountability by 50%+.
- Contributed to SEO overhaul of KidEx website — including keyword revamp, meta-data optimization and sitemap curation — lifting page traffic by >30%.

Functional Consultant @ o9 Solutions, Inc. [Supply Chain Mgmt/ Procurement, B2B SaaS] July 2021 - July 2022

- Developed and launched the cloud-based ERP platform for a leading FMCG conglomerate of the country.
- Scripted Python Models for weekly computation, distribution and management of Inventory, from scratch, improving cost and time efficacy by >= 10x.
